Method 1: Weigh the packed and sealed container. It can be performed by the shipper or a third party.
Method 2: The shipper or a third party may weigh all packages and cargo items, including the mass of pallets, dunnage, and other packing materials securing the cargo to be packed in the container, and add the tare mass of the container to the sum of the single masses of the container's contents.

By my signature above, I certify that the information I provided in this form is accurate and complete.

We understand and confirm that missing, incorrect and/ or belated VGM statements may result in non-acceptance of the shipment by the vessel operating ocean carriers and a delay in the originally planned schedule. Any additional cost caused by delay due to non-acceptance of the shipment by the carrier to be covered by VGM declaring party (as undersigned above).
